Perfect combination of security, experience and cost.

The LTO4 features InVue Alarm-on-Merchandise protection combined with a cut resistant cable and optional bracket arms for enhanced security. Designed to provide an excellent user experience, the LTO4 allows merchandise to be easily lifted from the stand for complete customer interaction with the phone or tablet. An exclusive breakaway fitting eliminates damage to the stand during a theft attempt and allows easy, immediate re-installation and an exceptional cost of ownership.

InVue

Simple configuration includes a stand with sensor that works for both handhelds or tablets.
